7. ☐ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____

The following is an examiner's statement of reasons for allowance:

The amendment after final, filed on 12 March 2004, has been entered, as stated in the Examiner's Amendment/Letter of Suspension mailed 17 May 2004. After entry of the Examiner's Amendment of 17 May 2004, claims 1, 4-9, 21-25, 27, 30 and 33-38 are pending.

The Examiner suspended prosecution because he became aware of allowed application Serial No. 09/620,800 to Ow et al, which had not yet issued, and which involved the use of the phi C31 integrase gene for plant transformation. That application has since issued as U.S. Patent No. 6,746,870. Upon careful review of that patent, it is now considered that it does not teach or reasonably suggest the instantly claimed features of a genetic construct comprising both a phi C31 integrase-encoding gene and a trait of interest-encoding gene, both operably linked to a plant somatic tissue-preferred promoter, wherein the entire genetic construct is bounded by the corresponding attP and attB recombination sites recognized by the phi C31 integrase, as claimed in claims 1, 8-9, 30, 37-38, and dependents. Furthermore, U.S. Patent 6,746,870 does not teach or reasonably suggest a phi C31 integrase-encoding gene comprising an intron, including SEQ ID NOS: 9-10, as claimed in claims 4-5 and 33-34.

The delay in prosecution is regretted.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
